

Natural Quartz

 **calisco**[®]

QUARTZ SURFACES

Within the scope of NSF certification, any kind of food preparation on Calisco Quartz Surfaces is attested to be safe.

Quartz, one of the hardest mineral stones found in nature,

refreshes its soul, gaining its sparkle again with the Calisco brand. We are enriching quartz, which provides various colors and brightness by opening the secret paradise gates of nature with its energy, with alternatives provided by modern technology. We continue to take firm steps to become the address of elegance by offering to all lives without distance.

Calisco creates its strong glow inspired by the rich colors of nature and challenges the imagination of design lovers by processing quartz. Calisco transforms the energy, in all the environments it enters, into a positive one, adding strength and happiness to the atmosphere of the place where it is located.

Calisco, which is compatible with nature and does not harm the environment, offers quartz stone with a hardness of 7 on the MOHS hardness scale, with infinite elegance so that it can be easily combined with different designs in all environments where it is used with stain-proof, easy-to-clean, low possibility of scratching and high chemical resistance.

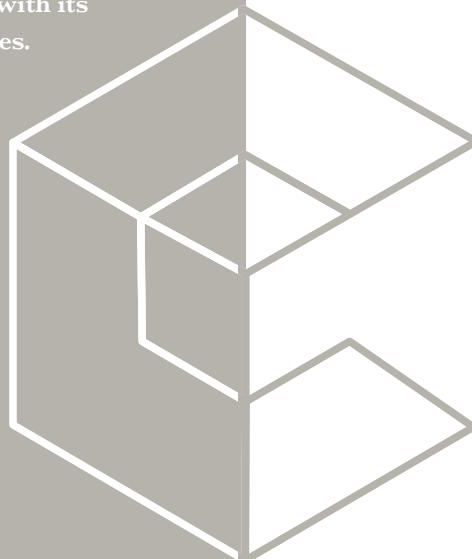

Calisco, which set a course with the unique beauties of the universe shapes quartz with great care and meticulousness, down to the smallest detail, as if it were growing a precious flower for you, our valued customers, with its enchanting glow on the surfaces.

ALTERNATIF MERMER MADENCILIK A.S., the youngest company of an industrialism tradition that has been active especially in the construction business since 1976, was established in 1998.

Our company that has been carrying on activities in marble sector ever since its foundation, processes marble blocks coming from its own quarries, via well-equipped machines and experienced staff in its own factory and presents elaborated marble products to Turkey and the World market.

Alternatif Mermer Madencilik A.S., thanks to its experience and knowledge in high quality production and marketing has started making quartz compound Surfaces production and sales under the brand name Calisco Quartz Surfaces in March 2016.

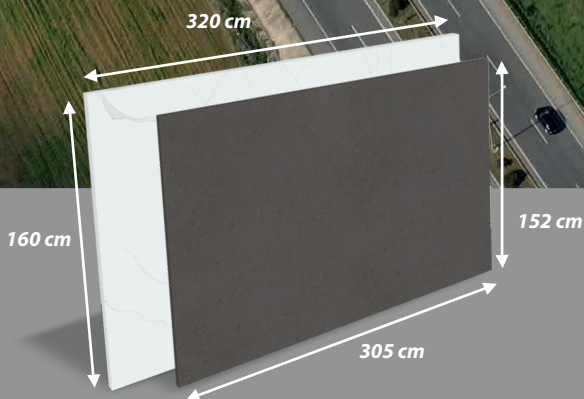

Calisco Quartz Surfaces is established with its high-tech equipped machinery park and specialized staff presents products in a variety of colours and patterns, which are the ideal combination of performance and beauty to Turkey and the World market.
